

How Rapid Life is Killing Our People.

UNPRECEDENTED NUMBER OF DEATHS RESULT FROM HEART DISEASE.

The fact that 125 persons died recently in one week in New York City, from heart disease, when the death rate the corresponding week in 1904 was only 50, has given rise to the belief among physicians that New York residents, and American people generally, for that matter, are living too rapidly. The strain of business and career attendant on the anxiety to gain wealth are given as an explanation by physicians of the conditions which exist today.

Doctors have established the fact that the nerve forces which control the stomach and the heart, are affected by the hurry of men in the daily scramble to bolt their food in order to quickly resume their exciting careers. Many young men now succumb to heart disease, where 50 years ago, a case was rare when a person under 30 years of age died from this malady.

Women are also victims. This is attributed to the manner in which they worry over social engagements, also to over-work. Worry and excitement, together with many nerve shocks which come to all in their daily life of bustle and haste, are the principal causes which snap the heartstrings.

We Americans, both men and women, are living too fast. We work too hard and worry too much. How can the strain be best contracted and the damage done be quickly repaired? Only by humorizing and assisting the stomach to act in a more healthy manner. This will be the blood be enriched, the nerves invigorated and the action of an enfeebled heart strengthened and regulated.

Dr. Pierce's "Golden Medical Discovery" is the right medicine to do this, as will be seen from what eminent medical authorities say of the different ingredients composing it. To make the weakened stomach strong that it may properly digest the food and thus manufacture rich red blood, Golden Seal, a prominent ingredient of the "Golden Medical Discovery" is pre-eminently the article needed. The late Prof. John M. Scudder, M. D., of Cincinnati, author of "Specific Medicine," says of it:

"It stimulates the digestive processes, and increases the assimilation of food. By these means the blood is enriched."

"The consequent improvement on the nervous and glandular systems are natural results." He further says: "In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic for all debilitated states."

The United States Dispensary says of Golden Seal root: "As a local remedy Hydrastis (Golden Seal) has a remarkable effect upon the mucous membranes, used in gastro-intestinal (stomach-bowel) catarrhs."

"In its influence upon the nervous system this root (Golden Seal), has stimulating properties, affecting circulation and circulation, imparting tone and increased power to the heart's action."

Then besides the tonic, which, according to the best medical authorities, stands at the head of all stomach and heart tonics and invigorators, there is Golden Seal, which, when taken in the form of Golden Seal root, is an acknowledged stomach and heart tonic—especially superior to all other remedies in valvular and other affections of the heart. The late Prof. Wm. Paine, M. D., of Philadelphia, says in his work on Concentrated Medicines:

"I not long since, had a patient who was so much oppressed with a valvular disease of the heart that his friends were obliged to carry him up stairs. He, however, gradually recovered under the influence of Collinsonin (the active medicinal principle of Stone root), and is now attending to his business. Henceforth physicians knew of no remedy for the removal of so distressing and so dangerous a malady. With them it was all guesswork, and it fearfully wasted the patient, and that death was near at hand. Collinsonin unquestionably affords relief in such cases, and in most instances effects a cure."

"Golden Medical Discovery" so strongly and faithfully represents the active medicinal principles residing in both Golden Seal and Stone root—that it can be depended upon to produce their combined and best curative effects. It must not, however, be expected to perform miracles. Those who have a "used themselves by over-work, and thus invited stomach and heart weakness must not expect a cure from the "Golden Medical Discovery" unless they reform their habits. They must let up on their strenuous labors and not over-tax their brains, nerves or muscles, take rational exercise in the out-door air, and simple food and not too much of it—well masticated and overloading the stomach. Get to sleep early and take plenty of rest in bed. With these improved habits, the life is taken down one by one, and you can confidently expect relief and cure from the use of that great stomach, nerve and heart tonic and invigorator, "Golden Medical Discovery."

It is a trite saying that no man is stronger than his stomach. Dr. Pierce's "Golden Medical Discovery" strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body and thus cures both liver and kidney troubles. If you take this natural blood purifier and tonic, you will assist your system in manufacturing each day a pint of rich, red blood, that is invigorating to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people suffer from, is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin and the feelings "blue."

Dr. Pierce's "Discovery" cures all blood humors as well as being a tonic that makes one vigorous, strong and cheerful. It is the only medicine put up for sale through druggists for like purposes that contains neither alcohol nor harmful drugs, and the only one, every ingredient of which has the professional endorsement of the leading medical writers of this country. Some of these endorsements are published in a little book of extracts from standard medical works and will be sent to any reader free, on receipt of request therefor by letter or postal card, addressed to Dr. R. V. Pierce, Buffalo, N. Y. It tells just what Doctor Pierce's medicines are made of.

The words of praise for the several ingredients of which Dr. Pierce's medicines are composed, by leaders in all the various schools of medical practice, are recommending them for the cure of the diseases for which the "Golden Medical Discovery" is advised, should have far outweighed the sick and afflicted, than any amount of the so-called "testimonials" so conspicuously flaunted before the public by those who are afraid to let the ingredients of which their medicines are composed be known. Bear in mind that the "Golden Medical Discovery" has THE BADGE OF HONESTY on every bottle wrapper, in a full list of ingredients.

Dr. Pierce's medicines are made of the best of the best. TURN TOWARD ALASKA NOW

Territory Becoming Center of Interest

WILLING TO BE GOVERNOR

Many Dealers Oppose the Free Seed Plan—Santo Domingo Hostilities Have Been Suspended Again.

Washington, March 7.—Alaska occupies a prominent position in Washington. The territory is the chief subject of discussion at the White House, where the president is trying to pick out the best-equipped man for governor to succeed John G. Brady, recently resigned.

Long before Governor Brady sent in his resignation about a month ago, the men who were anxious to succeed him began sending their agents to the White House in order to secure strategic positions when the fight actually opened. The news that Jarvis is out of consideration has caused other candidates to take heart. W. B. Hoggatt, of Nome, who seems to be one of the strongest men now in the field, is being urged by Senator Hemmeyer of Indiana. Hoggatt spent eighteen years in the navy, and in the Spanish war was on the war board. John P. Clum, recently appointed postmaster at Fairbanks, Alaska, is another candidate. Senator Bing of California journeyed to the White House to urge Clum's claims. Postmaster General Cortesuyo has also endorsed him heartily, and believes that his familiarity with the country gained while he was a post office inspector would make him well fitted for the place. W. P. Perkins, of Seattle, who has secured the endorsement of the Washington senators, is another candidate whose claims are receiving attention, and is by no means out of the running. Secretary Hitchcock is understood to have another candidate whom he is backing strongly at the White House.

Dealers Oppose Free Seeds. A meeting of seed dealers from all parts of the United States was held here Monday to devise way and means to keep the free seed distribution clause out of the agricultural appropriation bill this year. By vote of the house committee the clause appropriating money for seeds was stricken out. The dealers assembled here will seek to have the clause kept out of the bill altogether, and thus prevent what they consider unfair competition on the part of the government with private enterprise.

Peace Again in Santo Domingo. Commander Southerland has called the navy department from Monte Cristi that both sides to the revolutionary movement at that place have consented to a suspension of hostilities. He reported all of Santo Domingo, outside of that town, as quiet.

Aetna Case Thrown Out. The Supreme court of the United States has refused to take cognizance of the case of the Aetna Indemnity company of Connecticut vs. the city of Fairbanks, Alaska, by denying the petition of that company for a writ of certiorari to the circuit court of appeals from first circuit. The proceeding grew out of the fact that the indemnity company was surety on a bond for John A. Gilman, treasurer of the city, on which it was compelled to pay \$35,000.

Santo Domingo Looking for Money. Secretary Root has returned to Washington from New York and was at his desk Monday. Among the first callers was Senator Sanchez, who was secretary of state in Santo Domingo under the administration of President Morales. The special purpose of the call of Senator Sanchez was to ascertain what would be done by the state department in the event that the Senate failed to act on the pending Dominican treaty during the present session. Apparently Secretary Sanchez wished to know what would be done with that part of the money which was collected during the presidency of Morales.

Secretary Root declined to furnish any information on this point, taking the ground that it would be premature to hazard an opinion now as to what might occur if the treaty failed.

President Sees Venezuelan. Senator Veloz Gaitano, the charge d'affaires of Venezuela, paid his respects to President Roosevelt Monday prior to his departure from the capital. He will be relieved here by Dr. Gironman-Gaitano. The interview between the president and Senator Gaitano was notably cordial.

Chemists Holding Session. The committee on food standards of the Association of Official Chemists is holding its semi-annual meeting at the department of agriculture. Its purpose is the adoption of additional food standards.

Standards to be decided at this meeting were submitted to manufacturers, and the committee on food standards of the Association of Official Chemists is holding its semi-annual meeting at the department of agriculture. Its purpose is the adoption of additional food standards.

FOOT TIRED Aches and Pains

Instant Relief in MINARD'S KING OF PAIN LINIMENT

Bathe with warm water and apply Minard's Liniment (Glycerine and Free from Oil) freely, rubbing it in until the skin will absorb no more. This agreeable treatment gives instant relief for tired, burning, aching, blistered feet, as well as for rheumatism, neuralgia, pleurisy, stiff, twisted joints, sore, strained, or lame muscles, any pain or ache, and in cramp, sore throat, and bronchial troubles.

Cured His Tender Feet Will Cure Yours

"My case was a stubborn one of tender feet, but thanks to Minard's Liniment I can now walk in comfort and have no more trouble with them. It is also an excellent remedy for colds in the head and pains in the limbs. Geo. T. Keller, Jr., 1131 East 175th St., New York City."

dealers, chemists and other interested parties two years ago, with requests for expressions of opinion and evidence of the justice or injustice of the proposed standards, and all information so collected has been classified and compiled, and the present work of the committee is to consider that information and arrive at a just standard.

Dr. Seaman Examiner. Dr. William H. Seaman of this city has been appointed principal examiner of the division of chemistry of the patent office.

McJinny Prefers to Be Editor. E. E. McJinny of St. Joseph, recently appointed United States consul at Calicut, Peru, has forwarded his resignation to Washington. Mr. McJinny recently purchased a newspaper in Springfield, Missouri, and will be its editor.

Best Health and Comfort to Mother and Child. MRS. WINSLOW'S SOOTHING SYRUP, for children teething, softens the gums, reduces inflammation, allays all pain and cures wind colic. Perfectly safe in all cases. We would say to every mother who has a suffering child, do not let your prejudice, nor the prevalence of others, stand between you and your suffering child, and the relief that will be sure—yes, absolutely sure—follow the use of this medicine, if timely used. Price 25c, a bottle.

JINGLES AND JESTS. The Debtor's Plea. "In fact, I believe 'twas this very same date I promised your bill I would pay. But please understand on account of the fog I'm unable to see you today." —Yonkers Statesman.

Feline. "When I was sixteen," said Miss Passay, "papa gave me the cutest dog and ring and—"

"My," interrupted Miss Knox, "what a wonderful memory you have." —Philadelphia Ledger.

Love's Quasi Lost. A maid who was somewhat antique. Far and near for a hubby did she seek. But she sought in vain. For her face was plain. And her income but six pinks a week. —Detroit Tribune.

Assistance Wanted. "Say, old boy, I scorch'd a bit in my sawn tube, and now I find myself in hot water."

"What can I do for you?"

"Why, bail me out!" —Baltimore American.

Left at the Post. A shy young man with a stutter. Tried hard a proposal to utter. "E-say, a-will y-you?"

"But before he was through. She clapped with a dealer in butter." —New York World.

Wages of Lithographers. The Lithographers' association is one of more than 4,500 members and is one of the best-salaried trades in the country. No lithographer being eligible to membership in the association until he is able to earn a salary of \$20 a week. "If they can't earn \$20 a week, they are of no account in our trade, and we don't want them," said one of the national officers recently. "We make \$20 the minimum, and there is no maximum. The more they can make the more respect we have for them," said the official.

OUR PLANS ANNOY CHINA

War Talk Troubles Her Foreign Relations

MOVEMENTS UNFRIENDLY

Long Edict Published at Peking Yesterday—Rebukes Chinese Students and Orders Protection of Foreigners.

Peking, March 7.—The Chinese Government is greatly perturbed by the reports of anti-foreign movements printed in the American and European press, and particularly by the despatches announcing America's preparations for a military expedition in case of need.

These reports, it is alleged, tend to embarrass the foreign ministers and create strained relations between them and officials here. A long edict published in the Official Gazette yesterday, declares that the warlike reports are circulated by traitors who wish to separate China from her friends. The edict points out the great difficulties which confront China at present and the strong need for maintaining friendly relations with the Powers; reproves the Chinese students for meddling with politics; and charges all officials thoroughly to protect the lives and property of foreigners, specifying the missions, under pain of the most severe punishment. A strong force of the troops has been sent to the southern part of the province of Chihli where the people have been threatening the Christians.

The principle topic in the Chinese press also relates to the reports coming from America that the United States is making complete preparations to send a military expedition to China. The newspapers regard these reports as a manifest strategic disposition of troops has been made by Yuan Shi-Kai, he has stationed four Chinese foreigner's artillery at Chinchow on the Yuen River under the pretence that bandits are approaching. This artillery guards the northern approach to the capital, cutting the caravan route from Manchuria to Peking. He also is sending eight batteries of rapid-fire guns to Shantung under the pretext that a secret society there is exhibiting unrest, thus guarding the southern approach to the capital and cutting the Hankow-Peking road. Yuan Shi-Kai retains twenty-six modified Krupp guns, the most modern pieces in China at the hunting park, three miles south of Peking.

The imports of New Chwang for 1905, exclusive of military supplies, was the largest recorded. The total was \$33,000,000, of which \$22,000,000 came from America, \$9,000,000 being in cotton.

BOMB FACTORY CAPTURED. St. Petersburg Police Arrest 20 Men and Seize 120 Missiles.

St. Petersburg, March 6.—A wholesale bomb factory was captured by the police yesterday at the lodgings of a drugist. One hundred and twenty loaded bombs were seized.

The apartments had been the rendezvous of students and revolutionists, twenty of whom were arrested. Another terrorist, who was overpowered in the street, had a bomb in his pocket.

FR. GAPON DENOUNCES PETROFF. Says Latter Is Tool of Social Democrats Who Are Enemies of the Workingman.

St. Petersburg, March 7.—Fr. Gapon, in an open letter yesterday, denounces Fr. Gregori Petroff as a traitor and a tool of the Social Democrats, who, he says, are fighting against the true interests of the workingmen. Fr. Gapon also proposes a plan for a complete investigation of his organization by representatives.

EUROPE NEAR WAR. Frankfurter Zeitung Sounds a Serious Note of Warning.

Berlin, March 7.—The Frankfurter Zeitung, an influential newspaper and at times having official inspiration, stated yesterday that in government circles the international situation is regarded as critical and that Europe today is as near war as last Summer, when Germany was on the verge of a conflict with France and England.

The danger point, of course, is the dispute between Germany and France over Morocco, which the conference of the powers at Algeiras is trying to settle.

Mayor of Hudson Drops Dead. Hudson, March 7.—William S. Hallenbeck, mayor of this city, dropped dead yesterday while on his way to his office in the Municipal Building. He was sixty-seven years old.

Cervantes and His Wife. Cervantes drew a picture of his own wife in the "Mistress Housekeeper for the Devil," whom Sancho Panza abused so bitterly.

One First Drummer. Ell Terry, the wooden clock genius, was the first American drummer or commercial traveler, being obliged to make regular trips from his home in Connecticut over into New York to dispose of his wares. This was in 1790.

Cicero. Cicero was a notable punster. A collection not now extant of his puns was made by Julius Caesar.

THE SEPARATOR THAT PAYS FOR ITSELF

Occasionally the intending buyer of a cream separator who has but a small amount of ready cash to invest is tempted to put his money into one of the so-called "cheap" machines, which are being largely advertised. Although he recognizes the superiority of the DE LAVAL machine and his need of a good separator, he invests in the "cheap" trashy machine because he does not happen to have ready the full amount which he supposes to be necessary to buy a DE LAVAL. This is where closer investigation of the matter would pay him well. A

DE LAVAL SEPARATOR may be bought upon such liberal payment terms that it will more than earn its cost while the buyer is paying for it. In addition the DE LAVAL buyer has positive assurance that his machine will be good for at least twenty years of service, during which time it will save every possible dollar for him and earn its original cost over and over again. If he purchases the so-called "cheap" separators he must pay cash in advance and take the chance of the machine becoming worthless after a year or two of use, to say nothing of the cream it will waste while it does last—all of which means that the buyer has virtually thrown away the money invested in the "cheap" separator and wasted his time, labor and produce in the bargain. The DE LAVAL is THE separator that pays for itself—lasts on the average ten times longer than any other machine and insures the greatest possible profits in the end. This being the fact there surely can be no economy in the purchase of the so-called "cheap" separator, however small its first cost may be. Remember that the DE LAVAL pays for itself. Catalogue and full particulars gladly sent upon request. Write today.

THE DE LAVAL SEPARATOR CO. NEW ENGLAND AGENTS: STODDARD MFG. CO. RUTLAND, VT. GENERAL OFFICES: 74 CORTLANDT ST., NEW YORK.

Lyman Howe's Moving Pictures. The simple announcement of the return engagement of Lyman H. Howe's Lifeama at the opera house Monday, March 12, will be sufficient to draw an audience only measured by the capacity of the house. This attraction has visited Barre many times, but each succeeding visit has only intensified the interest of the public in Mr. Howe's deservedly popular entertainment. This is not only true for Barre but for all over the country. The new program unerringly ever, portrays themes and activities of world wide interest and abounds with the spirit of travel and comedy.

IN LOCAL MARKETS. Poultry Is In Good Demand. Eggs continue low and plenty, while veal is firm but unchanged. We quote wholesale prices as follows:

Dressed Pork—Easier at 7½c. Veal—Steady demand, at 9@9½c. Lamb—Firm, at 12@13c. Chickens—Scarce, 16@18c. Fowls—15@16c. Eggs—Lower, 17@18c. Butter—Firm, but unchanged; dairy, 22@23c; creamery, 25@26c. Native Beef—Steady, 5@6c. Potatoes—Quiet, at 65@70c. Vegetables—Good demand and slightly higher.

RICKER'S ST. JOHNSBURY MARKET. No Change in Markets, Only Beef Is Selling Low.

St. Johnsbury, March 7.—There is no change in the market, only beef is selling low and is very slow. The receipts at W. A. Ricker's market for the week ending March 5, were:

Poultry—200 pounds, 9@10c. Lamb—15, 30@32c. Hogs—235, 26@31c. Cattle—40, 26@4c. Calves—285, 32@34c. Milch Cows—\$25@45.

Butter and Cheese Market. Boston, Mass., March 7. Butter—The market was steady; northern, 25½@26c; western, 25@25½c; Vermont dairy, 30@32c. Cheese—Market was steady today; Vermont twins, 13½@14c.

Failing Strength. A weak and exhausted condition usually follows overwork, too close confinement, or unusual mental strain. Every day a certain amount of vitality is consumed, and if not replenished by sleep, rest and nourishment, soon wrecks the nervous system. The results are sleeplessness, headache, indigestion, imperfect circulation, etc., which affects the organs of the body.

Restore your nerve strength—your vitality, with Dr. Miles' Nerve and your whole system will recuperate. Your sleep will be sound and refreshing, headaches will disappear, and
